

WILD VAN

Nissan NV200 & e-NV200 Campervan Conversions

2024

Welcome to our world!

We like to think that booking in a conversion with Wild Van is much more than just buying a service. Being a small team of two, brought together by a shared love of camping adventures and exploring the great outdoors, this is more than just a business, to us it's a lifestyle!

The Wild Van experience is all about embracing a sense of wanderlust and finding out what true freedom feels like!

Wild Van was started by a desire to create camper conversions that go beyond the ordinary. That feel like comfortable tiny homes, with robust materials that will last for years to come and stylish interiors to bring a little luxury into camping.

We recognise that camping trips offer so much more than just relaxing downtime, they're a chance to get back to basics, switch off from our devices and re-connect. It's also a wonderful way to get closer to nature, spending real quality time outside, noticing the wildlife and the colours of the changing seasons.

Our strong eco principles are at the heart of everything we do. We are constantly striving to reduce waste, using reclaimed timber and the most environmentally friendly materials, as it is our mission to keep our carbon footprint and environmental impact to a minimum.

Wild Van are Dee, Simon and most importantly, our little dog Penny

1. FIND YOUR PERFECT BASE VEHICLE

Choosing the right base vehicle for your conversion can feel like a daunting task. We're here to help offer our expert guidance, based on years of experience to help you find just the right van. Both the NV200 Combi and the Panel Van work well for conversions, we can fit additional windows as desired.

2. CHOOSE YOUR LAYOUT

Each of our NV200 layouts are based on tried and tested designs, developed to maximise space and comfort, whilst providing practical and easy to use storage and amenities. Browse our range and find the perfect layout for you.

3. CHOOSE YOUR FEATURES

Perhaps you plan to spend long trips away travelling off-grid? Maybe you're looking for shorter campsite stays? Whatever your plans, we can help you find just the right conversion spec, from the more minimal back-to-basics, to the all singing and dancing...and everything in between!

4. DESIGN YOUR INTERIOR

This is where you can let your imagination run wild and your creativity shine! We will work with you to bring your conversion design to life with a 3D computer model and offer a huge range of bespoke materials, colours and finishes, so that your van is a true reflection of you.

5. WE START THE CONVERSION!

Once we've created your perfect camper design and you're 100% happy with everything, it's time to bring your van to our workshop. We need the van for around seven weeks to carry out the complete conversion, during which time we will send you weekly progress updates.

We are proud to offer three meticulously thought out layouts, developed over years of creating bespoke Nissan NV200 conversions. These designs have been carefully considered, to offer the ultimate in comfort and convenience. Incorporating bespoke furniture that is perfectly contoured to the shape of the van, not a single inch of space is wasted. The Nissan NV200 is best suited to being a 2-berth camper, however there is the option to fit bed rails in the pop-top roof, providing extra sleeping space for one adult or two children.

We can confidently say that your ideal camper layout lies somewhere among the following pages...

Our Layouts...

WILLOW

ELM

CHESTNUT

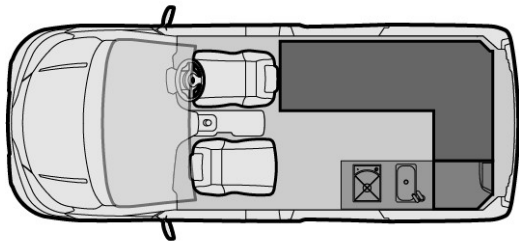

Willow is our classic 'tiny home on wheels'. With a comfortable open plan design and large corner sofa, this is our most spacious layout in terms of floor space, living area and storage.

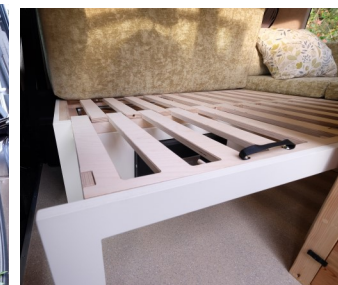

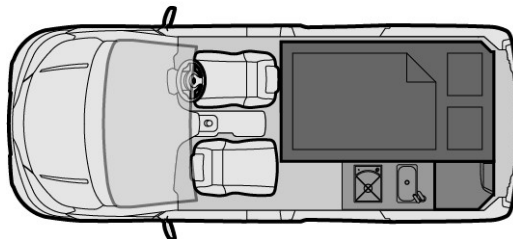

Key Features...

- L-shaped sofa/fold-out small double bed, with custom removable, washable cushion covers in a wide choice of fabrics.
- Tall storage cupboard with the option for an in-built bookshelf or spice rack
- Under-bench storage with space for a blown air heater/ fridge/toilet
- Pivoting table mount, enabling you to move the dining table out of the way to access the sofa/kitchen
- Kitchen with space for a sink and single burner hob, with a combination of drawers and cupboards for storage
- Flap-up worktop extension for additional workspace
- Thoughtfully placed 12V, three-pin and USB charging sockets throughout

Day Mode:

Night Mode:

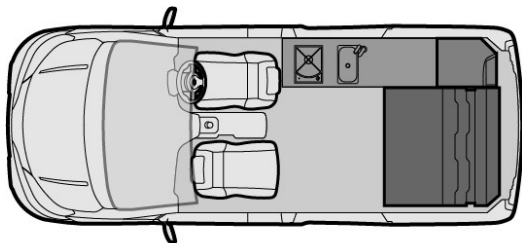

Elm is our family friendly rolling home. Equipped with all the functional design features to give you a cosy home from home that can carry an additional two passengers in the back of the van on the M1 crash-tested rock 'n' roll bed.

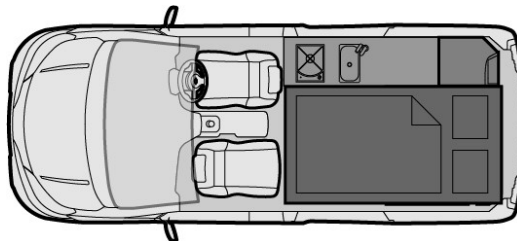

Key Features...

- M1 crash-tested rock 'n' roll seat, providing two extra travel seats in the back of the van, that folds down into a small double bed, with storage space underneath big enough to fit a 30L drawer fridge. Available with custom upholstery in a large range of fabrics.
- Tall storage cupboard with the option for an in-built bookshelf or spice rack.
- Slide rail table, enabling you to move the dining table out of the way to access the seat/kitchen.
- Kitchen with space for a sink and single burner hob, with a combination of drawers and cupboards for storage.
- Thoughtfully placed 12V, three-pin and USB charging sockets throughout.

Day Mode:

Night Mode:

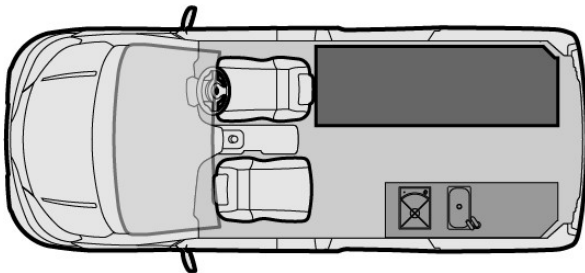

CHESTNUT

Chestnut is our back to basics adventure-mobile. This layout is ideal for those looking for a bit more unutilised space. Our Chestnut conversion makes a great dual purpose van, with easy access space to carry things like tools and equipment for work. With a single bench seat running down the length of the van, this layout offers rear door access as well as the slide door at the side of the van.

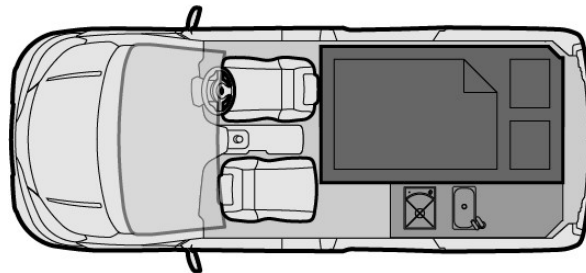

Key Features...

- Bench seat running the length of the van which can be folded out into a small double bed, with space underneath to house a 30L drawer fridge and/or a cassette toilet, plus heaps of additional storage space.
- Storage cupboard with the option for an in-built bookshelf or spice rack.
- Pivoting table mount, enabling you to move the dining table out of the way to access the sofa/kitchen
- Kitchen with space for a sink and single burner hob, with a combination of drawers and cupboards for storage.
- Thoughtfully placed 12V, three-pin and USB charging sockets throughout.

Day Mode:

Night Mode:

As standard, all of our conversions come fully insulated with ply and carpet lining, plus a hard-wearing, non-slip Altro flooring. You can mix and match between the spec levels on page 8 to find just the right features for your ideal camper.

Customer Feedback

"We just wanted to say thanks for doing such an amazing job on our van. Everyone who has seen it thinks it's great and looks really beautiful. There's plenty of storage and kitchen work space. The bed is comfortable for two with great views! The palm tree surfer's table looks great and works really well....it is working really well as an every day gardening van. Everything fits in really well with great access and the beautifully made tool box fits all my regular tools."

Richard & Helena

"Dee & Simon were approachable at every stage of the design and build. It was always a two way process. Communication was excellent despite the distance between us. Clear, helpful drawings were supplied when changes to the design were required enabling me to make informed decisions. My tiny van has many curves and awkward features, not easy to convert. The end result is testament to the craftsmanship of Dee & Simon. Not only is my van conversion beautiful and unique it has proved to be a competent, on and off grid, mini camper."

Tricia & Jolly

"The campervan that Dee & Simon have created for me is even better than I could have imagined. They were communicative and helpful throughout the design and build process, and took my idea and ran with it – even coming up with some elements that I would never have thought of on my own, such as the table inlay design (which is now my favourite part of the van!). They were very flexible and worked hard to ensure that everything I was looking for would be incorporated into the design, and extremely clear in explaining to me what would and would not work and why. I cannot say enough good things about the entire process and the van itself – the end result is both beautiful and hugely functional, and I look forward to taking it on many adventures all year round."

Debbi Steele

**1.**

CHECK AVAILABILITY

Contact us either by email to **info@wildvan.com**, or, give us a call on **07851 467535**, to find out about our next available conversions slot.

**2.**

FACE TO FACE MEETING

To help us understand exactly what you're looking for in your ideal camper and to give you an idea of whether we're the right company for your conversion, we like to have a no obligation meeting at our workshop in Norwich, Norfolk. If distance is an issue, we're also happy to arrange an initial video call.

**3.**

RECEIVE YOUR CONVERSION SPEC & QUOTE

Once we've had a chat about your requirements and how you're going to be using your campervan, we will send you a tailored conversion specification and quote to consider. This will detail all the features to be included in the conversion and confirm the total conversion cost. We always work to a fixed cost, so there will be no hidden charges along the way.

**4.**

BOOK YOUR SLOT

If you decide you would like to go ahead and book a slot for your conversion, we ask for a £500 deposit to secure our next available space. We will then confirm an estimated start date for your build and begin work on some 3D computer drawings of your conversion design, to give you an idea of how your camper interior will look.
